Math: We continued working on perimeter and area. We also started working on fractions - learning what they are and locating them on a number line. A test over unit 6 will be given next week.

Spelling: Our list this year was a review list from past units. No more spelling tests this year!

Reading: We listened to a story online and then answered questions about the story. This was to help us practice for the M-Step.

Writing: We finished our opinion piece that will be graded. Look for this to come home before the end of the year. Due to M-Step testing, that was all the writing we were able to get in this week.

Science: We worked on our lapnote books again this week. This time we made a vocabulary book that contains all the words we are learning about in the force and motion unit.

Social Studies: The students are learning about the growth of Michigan.

In Mr. Oosting's room, students are working on a science unit about recycling, reducing, and reusing.

Specials for next week:
Monday - No school
Tuesday - Music
Wednesday - Art
Thursday - Gym
Friday - Music

FYI:
M-Step testing dates for next week are May 27 and May 28. Both of these dates are days when we test in the afternoon.

Congratulations to Kate Albrecht for finishing first for the third graders in the Memorial Day Run! She is speedy!!
