### Math
We took the test over unit 6. I will be reviewing some concepts with area and perimeter and retesting next week as this was a difficult test. We also worked on finding fractions on a number line.

### Spelling
We are finished with an official spelling list for third grade! We used our spelling time to work on cursive writing!

### Reading
We read some nonfiction articles from the National Geographic magazine. We read about earthquakes and about animals that are making a comeback after their habitat was destroyed by war.

### Writing
We did not do any formal writing due to the ELA M-Step, which required the students to write...a lot!

### Science
We used our science laptop notebook to take the force and motion test. This is coming home today.

### Social Studies
The students are learning about the growth of Michigan.

In Mr. Oosting’s room, students are working on a science unit about recycling, reducing, and reusing.

### Specials for next week:
- Monday - Art
- Tuesday - Gym
- Wednesday - Music
- Thursday - Art
- Friday - Alward Olympic Day

### FYI
We did it!! We finished the M-Step this week! I am so proud of how the kids worked hard and gave it their best. It feels good to be done!!

Our last day of school is Friday, remember dismissal is at 1:00 that day. It is also Alward Olympic day. Be sure to watch the weather for appropriate dress and other things (sunscreen, water bottle).
